A creation by Cirque La Compagnie

One car, 5.5 men... They don't have much in common, but there is at least one particularity that unites them: their father. The 5 brothers find themselves together on the road on their way back from their father's cremation. The latter is also present in the car: he travels in an urn... And it's an accident! Relax in front of this tragi-comic huis clos with these five exceptional circus artists, who offer a dynamic, joyful and extremely inventive show.

CHRONOCIRCUS

In this collection that honors contemporary circus in all its forms, artists from all disciplines express themselves through inventive, immersive and cinematic works with energy, poetry and humor. Juggling, acrobatics, acrobatics, Chronocircus captures the freedom that characterizes this new multidisciplinary scene in perpetual evolution.

VELOCIRAPTOR

The acrobatic bicycle collective La Bande à Tyrex takes over the Vichy Opera for a crazy and twirling creation! Through this short film which mixes the acrobatic work of the Bande à Tyrex, music and cinema, the collective presents its unbridled and explosive universe. The ten circus artists on ten bicycles highlight the grandiose and precious architecture of the Vichy Opera House with tenderness.

LOCKDOWN

Austrian-born, multi-talented artist Michael Zandl began juggling at a very young age. Fascinated by physical abilities, he pursued his dream and developed a true passion for the circus. From natural sciences to circus arts, he studied at a prestigious school in Rotterdam. With an already rich career, Michael Zandl collaborates with Roberto Magro (La Central del Circ) and Ed Wubbe (Scapino-Ballet Rotterdam). Magic, humor and hats in this psycho-thriller that opens the new Chronocircus collection.

LOST PARADISE

Between fiction and reality, the artists' collective Cirque Pardi! takes up the codes of the traditional circus and offers us a whirlwind of acrobatic acts. Fixed trapeze, swinging trapeze, dance, acrobatic bicycle, tightrope walking, acrobatic lifts, clowning and juggling are all mixed together in this whimsical cabaret.

FLOWERS BLOOM IN THE SHADE

Through more or less dangerous acrobatic installations, the character puts himself in danger and reflects on the beauty and fragility of the world. Inspired by "Take Care of Yourself", author and director Marc Oosterhoff places emotions at the heart of his work.

SPEED

With humour, Marta Torrents takes us into the schizophrenic daily life of a young mother. In the intimacy of the character who performs gestures at supersonic speed, the author and director denounces the mental burden that weighs on women.

ZUGZWANG

In this episode of Chronocircus, Le Galactik Ensemble highlights the discipline of situational acrobatics, that direct and concrete relationship between an uneven environment and man's ability to adjust to it. Through their creation, they demonstrate that faux pas and imbalance generate something unexpected but constructive, a happy chance.

CHIENDENT

Laughter, fear and fascination: the acrobats of the company La Volte serve us a cocktail of emotions in this episode of Chronocircus. Through the acrobatic materials developed by the duo, "Chiendent" questions the relationship with the other's body and particularly male friendship, while trying to explain why the acrobat/showman fascinates us and scares us at the same time.

ECHO

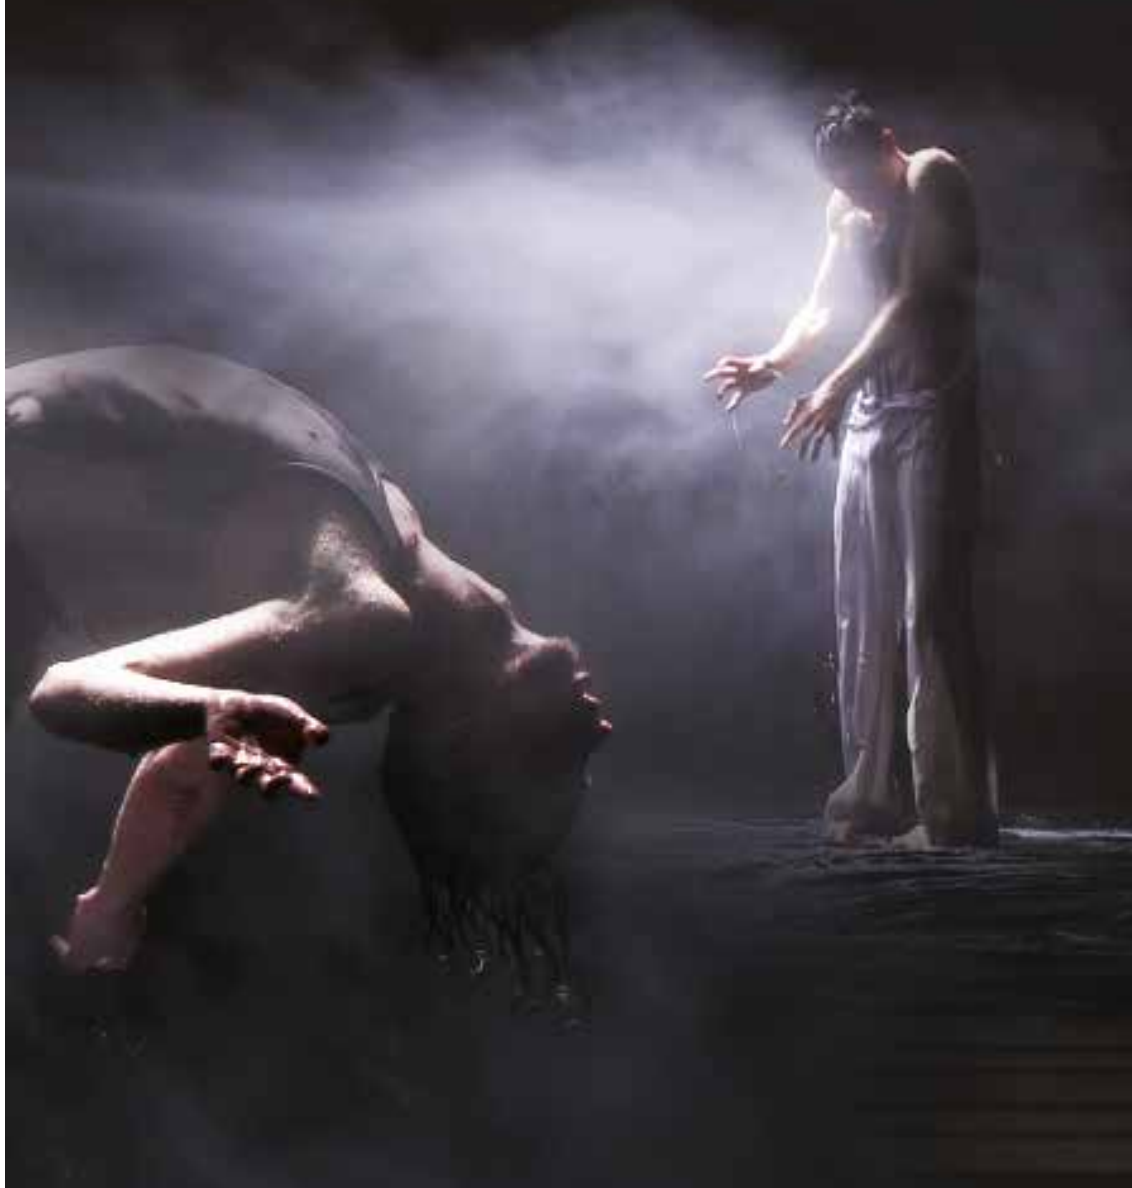

After learning the visual and plastic arts, Inbal Ben Haim discovered the circus and devoted herself to the rich minimalism of the corde lisse. By mixing circus, dance, theatre, improvisation and plastic arts, she creates her own poetic of expression, which she exposes in this creation, where acrobatic body and delicate material, but also delicate body and resistant material, are dialogued. Born from her meeting with Alexis Merat, a paper artist, the project brings together the body and a material that is both fragile and resistant: paper.

Music is everywhere: in bars, churches, shops, ritual ceremonies, in the headphones of our smartphones, in both public places and private places ...

It adopts an infinite number of different forms, as varied as the forms of the living world. Everything around us happens as if music had proliferated over time, transforming itself through a series of mutations.

How to explain this universality and diversity? Would it be possible to go back to a source? To an origin? Let's try to jump back in time, to the sources of music.

American, William Christie is one of the great ambassadors of French culture and the French way of "feeling art", as he likes to say. His career as a harpsichordist, conductor, musicologist and teacher remains closely linked to France. It is at the origin of a remarkable musical adventure: his rediscovery of baroque music. This film seeks to give voice to one man's unique point of view and to lift the veil on the path of this enormous talent, who is as lucid and charming as he is inaccessible.

They are singers, musicians and directors. They are between twenty and thirty years old. They have been chosen for their excellence and start their residency at the Academy of the Paris Opera. Culture and music are their trump cards and their strength. They embody both diversity and living together, but also a new generation of committed artists. They talk Mozart, Puccini, Verdi... via Skype and their cell phones. They are the world and the talents of tomorrow.

This film is their story.
